DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/31/07 has been entered.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 2 is rejected under 35 U.S.C. 102(b) as being anticipated by Termin et al (US 5221261).

4. Termin discloses a radially expandable fixation member comprising a catheter 80 having an inflation lumen 88, a guidewire lumen, and a balloon 82 having an expandable region that contacts a blood vessel wall during the use of the balloon (Col. 7, line 60- Col. 8, line 6), a traction member 90 coupled at the first end 92 of the member and free at the second end, the traction member conforms with the expandable region of the balloon (Col. 8, lines 1-6). The

woven structure of the traction member of Termin inherently has bumps formed by the portions of the woven member that overlap forming a thicker portion or a bump.

Allowable Subject Matter

5. Claim 15 allowed.

Response to Arguments

6. Applicant's arguments with respect to claim 2 have been considered but are moot in view of the new ground(s) of rejection.
7. Applicant's arguments with respect to claim 15 have been fully considered and are persuasive. The rejection of claim 15 has been withdrawn.
